

SEÁN MURPHY

SOFTWARE DEVELOPER

PROFILE

I'm a creative, passionate and ambitious software developer equipped with diverse and promising skills, currently seeking an exciting and challenging role in software development that offers the opportunity to develop professionally and personally. Specialising in full stack web and mobile development, I ask the why questions and love to problem solve with a curiosity for pure node.js, design patterns, data structures and algorithms and more recently taking an interest in android development with kotlin, web 3.0 and crypto contracts with web payments.
